About PETROTECH

Petrotech was first held in 1995 and it was clear from the response to the inaugural event that it had a bright future as a focal point for India's energy industry. The event has continued to develop and is now respected as the leading forum in South Asia for debating the issues that face the global hydrocarbon industry.

Petrotech is a biennial event held under the aegis of **Ministry of Petroleum and Natural Gas**. Each of the eleven conferences and exhibitions held since 1995 have set higher standards, building momentum and uniting the upstream, midstream, downstream, HSE and renewable energy sectors in helping to secure India's energy needs as well as promoting the drive towards energy independence.

Petrotech Conference and Exhibition will aim for tangible contributions to the issues of shaping an equitable and sustainable energy basket, diversifying the global energy basket, creating capacity to service the emerging energy basket, aligning policy with the emerging energy basket and global partnerships for sustainable energy solutions.

PETROTECH-2019 is planned on the Theme:- **Shaping The New Energy World Through Innovation and Collaboration**. The emerging energy world is faced with new challenges from with-in and from outside of the sector. The future shifts in demographics, urbanization, energy demands and markets will be key in shaping the New Global Energy System. The horizon bears the first rays of visibility in sustainable economic advantages from a spectrum of energy sources. The global energy space is moving from its traditional frontiers of availability, affordability, efficiencies, and accessibility, towards newer dimensions of Integration, digitization, automation and innovation. The advancements in use of artificial intelligence in energy sector opens up a new dimension for energy Industry. The Energy leaders of tomorrow will deal with multi-dimensional template of this emerging global energy industry, with renewed stake holders expectations. At Petrotech 2019 we will endure to take a deep insight to the emerging new energy market and gather to share our experiences to forge new partnerships and think of realisable collaborative preparation to shape the New Energy World.

Organised By - FIPI

The Federation of Indian Petroleum Industry (FIPI) is an apex Society of entities in the hydrocarbon sector and acts as an industry interface with Government and regulatory authorities. It helps in resolution of issues and evolution of policies and regulations. FIPI came into existence in 2016 by merging the two existing bodies ie. The Petrotech Society, which organized the biennial International Oil & Gas Conference & Exhibition, Petrotech, and the Petroleum Federation of India (PetroFed) which had wide range of activities such as lectures, workshops and seminars to promote the interest of the petroleum industry.

FIPI now represents the industry on Government bodies, committees and task forces and has been submitting recommendations to the Government on behalf of the industry on various issues. It aims to be the most effective and influential voice of the oil & gas industry to facilitate its development as a globally competitive industry in India that enjoys the respect and trust of the society. Several Government policy initiatives have their genesis in its reports and publications, some of which are quoted in documents like the Integrated Energy Policy. FIPI organizes seminars, conferences, workshops, roundtable meetings and brings out study reports and a quarterly journal. It has instituted 15 Awards in 13 categories which are open to all Oil & Gas companies operating in the country without any entry fee. All major companies operating in the oil & Gas sector in India are members of FIPI.

Exhibition Partner - ITE GROUP PLC

The company was established in the early 90s when the founders of ITE launched a series of trade events in the new market economies of Russia and the CIS.
